

Hazard	Level	Participant or person effected	Existing controls	Additional Controls
Ropes knocking other participants	Medium	Any Participant	We will ensure skipping happens in a controlled area. We will ensure participants are warned to be careful of others and only skip in a sensible space. There will be a one strike and out rule on deliberate hitting.	Children will be advised of space needed. Will be warned regarding how to use the rope safely and spectators will be kept at a safe distance.
Slips/Trips	Low	Any participant	A slip or trip could result in a graze or cut depending on the provided surface. Running through a rope or playing double dutch could result in a heightened chance of slip/trip. Children will be instructed NOT to run with individual ropes.	DTSMTM staff will ensure control of games where a heightened tripping risk occurs and that participants know the safety guidelines.
Lack of Space	Dependant on space given. Small space increase risk	If the space offered is small there is potentially heightened risk of striking with ropes between participants.	Decisions will be made on the day as to how many people can skip in the have a go zone @ any time. DTSMTM will amend any activity on safety grounds if space is inappropriate.	NA
Rope knocking participant in control	Medium to High	As participants are in control of their own rope there is a risk they will knock themselves. The speed ropes can mark if skipping fast but the mark will fade quickly.	All skippers will be informed as to the safety guidelines for rope use and how to skip safely. Any skipper who is deemed to be skipping inappropriately and causing themselves or others harm will be asked to stop the activity.	NA
Covid-19	Changeable as per Government guidance	All	Currently at the start of each lesson ALL ropes will be cleaned with Anti-Bacterial wipes. At the schools discretion social distancing will be implemented.	Should a coach feel unwell at any time and suspect they may have Covid-19 they must inform DAN or Rachael immediately. NOT attend their day or explain to the school contact and stop their scheduled day.
